

Assignment # 01

MTH501 (Fall 2023)

Marks: 10

Due Date: 15-11-2023

DON'T MISS THESE: Important instructions before attempting the solution and submission of this assignment:

- Lectures 1-10 are included in Assignment 1.
- Assignment 1 is due on Nov. 15, 2023.
- The course is segmented into TEN sections, each of which is supervised by a different faculty member. Information regarding (YOUR) section incharge can be found in the course information section on the LMS.
- Each student will solve the Assignment given in his/her section.
- The assignment file can be downloaded from the announcement section of the course. It is important to note that students can only view the announcements relevant to their respective sections.
- Submitting a copied assignment will result in a zero grade. Furthermore, if any student submits a solution file that is not relevant to their section, they will receive a zero grade.
- The solution file of assignment 1 will be directly submitted on LMS assignment interface as per usual practice.
